

Julie Murkette turned my manuscript into a beautifully designed and coherent book. Her extraordinary contribution to my book not only gave me a product to be proud of, it also changed my life. Without her work would the book have been reviewed in the *New York Times*? Would the work have been chosen by *National Public Radio* for six wonderful shows? Would I have had a national book tour? I think, perhaps, not. Her work is top quality and she is unbelievably helpful, punctual, and good to work with.

— Andrea Siegel
author, *Open and Clothed*

Julie Murkette is the most down-to-earth professional I've ever met. She held my hand and never left my side through the entire process of laying out my book. She never failed to call me back and answer my emails. In short, she gave me everything I asked for and more. Her phenomenal attention to detail and her keen editor's eye, was a bonus. Her experience in the book industry is priceless to me as an author. If you want your book to be noticed, if you want your work to shine, if you want the closest thing to perfection you'll ever get, then you want Julie Murkette.

— Pamela King Cable
author, *Southern Fried Women*

Thank you so very much for your work on my website—and your reassurance, patience, and understanding throughout the process.

— April Ridlon

Out of the gate, everyone is blown away by the design. You've stolen my thunder. Looking forward to the next one.

— David Tatlock
author, *Dreaming Portugal*

Thank you for your total commitment to the editing process and creation of the paperback edition. I could not have asked for a more skillful design. Your immediate and responsive participation in the process made it such a pleasure to work with you.

— Natalie Rogers
author, *The New TalkPower*

ABOUT US

Julie Murkette began working with books and writers in 1976 as the sole proprietor of *Womanchild Press*. For several years she published chapbooks, broadsides, and an annual journal of poetry. Each were created one letter at a time, using metal type and a 19th century treadle-operated letterpress. Although the technological transition from letterpress to computer-generated materials was gradual, her dedication to quality and perfection remains consistent.

Located in rural, central Massachusetts, we will work with clients anywhere in the world.

Customer satisfaction is our primary goal, and we will go to extraordinary lengths to meet any deadline.
